RAIL OPERATORS

METRO RAIL & TRAM

INFRASTRUCTURE MANAGERS

FREIGHT

INDUSTRY

ATTENDEES ACROSS THE VALUE CHAIN

SECTORS

- Infrastructure managers
- Rail operators – commuter, passenger, high speed
- Metro and light rail
- Freight, ports, logistics
- Financiers
- Asset managers and maintenance
- Smart infrastructure
- Construction and engineering
- Integrators
- Signalling and communications
- Energy & power
- Rolling stock
- Fixed infrastructure and track
- Digital
- Station infrastructure
- Machine tools and components
- Cyber security

JOB TITLES

- Chief Executive
- Managing Director
- Director General
- Chief Technology Officer
- Chief Engineer
- Strategy and Business Development Director
- Asset Management Directors and Engineers
- Project & Construction Directors
- Metro Director
- Director of Innovation
- Sustainability Director
- Project Management Director
- Cybersecurity Director
- Signalling & Train control Directors
- Operations and Planning Director

OUR ATTENDEES COME FROM

GLOBAL INVESTMENT IN RAIL

In 2021 alone, 276 rail construction projects broke ground, at a combined cost of \$500bn. The most common type of rail construction projects were mass transit or metro projects. A third of all railway projects across the globe were mass transit or metro projects, costing a total expenditure of over \$221bn. Rail Live! is the place to learn, share and network so that the industry can showcase the innovation which is making rail the go to mode of transport.

TECHNOLOGY. INNOVATION. STRATEGY.

METRO & LIGHT RAIL

The backbone of mobility within cities. As these systems grow and expand their thoughtful and inclusive design is key to ensuring citizens choose this mode of travel.

DIGITAL TRANSFORMATION

Digital products and key innovations continue to push the boundaries of the rail industry to perform better, more efficiently, and more cost effectively.

SMART INFRASTRUCTURE

Railway infrastructure is under incredible pressure to optimise capacity and reliability while simultaneously reducing costs.

SAFETY, SECURITY & CYBER

Safety has always been a priority of the rail industry. Today this priority has expanded well beyond the physical and into the digital realm.

SMART MOBILITY

By integrating first-and-last mile options and allowing for multimodal journeys, rail can ensure that the journey to and from our stations are just as sustainable as everything in between.

SIGNALLING & TRAIN CONTROL

Cutting-edge train controls and innovative signalling systems are at a critical turning point in their development whilst the rollout of CBTC, ETCS, and ATO, will revolutionize track capacities.

FREIGHT

We explore how the Rail Freight market can compete more effectively against other modes, including road. Commercial and technical challenges are critical to increase competitiveness and enable this modal shift.

FUNDING & FINANCING

The funding and finance of rail remains a challenge for government at all levels. Exploring ways new, innovative funding models are being deployed by institutional investors will guarantee that necessary funds are accessible.

ENERGY & CLIMATE RESILIENCE

As governments around the world implement net zero targets, we'll showcase how the rail industry is meeting the need to further reduce carbon emissions and adapt to new sustainability standards.

SPANISH SYMPOSIUM

Highlighting the main challenges facing the Spanish rail market and what the countries metros, infrastructure manager and operators are doing to overcome these.

TRAINING & DEVELOPMENT

How does a career in rail become an attractive and rewarding career? We'll explore the role of government, academia, industry, operators, and infrastructure managers in training and developing the rail leaders of the future.

MEGA PROJECTS

Investment in rail is key to ensuring economic growth and prosperity. Ensuring these projects move beyond the drawing board and are built at pace remains challenging for all of those involved.

WHY SPONSOR OR EXHIBIT

RAILLIVE!

Presents unique annual opportunities across several event channels, all designed to deliver business development and thought leadership opportunities.

THOUGHT LEADERSHIP PRESENTATIONS

Build trust in your product and solutions by demonstrating your pre-eminence among the leaders in the rail sector.

SHOWCASE

The exhibition floor is the place to showcase new technology and build new business connections: establish a base so your clients can find you easily.

BRANDING AND SIGNAGE

Develop awareness of your brand before, during and after the event.

USE CASE PRESENTATIONS

Demonstrate your success stories and show how your solutions can be applied in other settings.

NETWORKING AND SOCIAL

Impress the world with your hospitality across our networking tools and social events.

LEAD GENERATION

Gain new business opportunities across the whole highways value chain.

CALL FOR START-UPS

Digitisation and technology are speeding up changes across industries, and rail is no different. Innovative new ways of thinking are key to making this transformation real. If you have a product or service which is poised to alter the trajectory of rail, then join the industry at Rail Live and have the chance to showcase your idea to key stakeholders.

BENEFITS OF PARTICIPATION:

- 1m² booth
- X5 full access passes to the event exhibition and conference
- Networking application to pre arrange 1-1 meetings at the congress on private bookable tables
- Branding on event materials
- Marketing from Terrapinn
- Listing on event web page

Qualifying start-ups need to be founded no earlier than 2019.

Are you a start-up interested in presenting your solutions to the rail industry? To discover if you are eligible for a free start up pod at Rail Live 2023, please get in touch with: charlie.abrines@terrapinn.com

Previous start-ups

IN MADRID

As one of the key transport hubs in Europe, our location is no coincidence. Having partnered with many of the operators, infrastructure managers and metros in Spain and neighbouring countries, we have an excellent network of professionals for you to engage with.

Madrid is Spain's capital and most populous city. Its location at the centre of the Iberian Peninsula is no coincidence as it has historically served as the connecting node bringing north, east, south and west together. Given its location it's no surprise that it's home to the country's national operator Renfe and infrastructure manager ADIF, whilst also hosting the largest metro system, Metro de Madrid. As the capital city, it hosts key government departments like the Ministry of Transport and other arms-length bodies such as La Fundación de los Ferrocarriles Españoles who are responsible for promoting rail.

Since the first high-speed journey connecting Madrid and Sevilla was accomplished, the Spanish railway industry has grown from strength to strength creating an ecosystem which is noted for its high degree of internationalisation and innovative technology.

FACTS

- 40% of the world's transport concessions are managed by companies in Spain
- 83% of Spain's rail related products are exported
- Spanish companies are present in 5 continents

Rail Live 2023

Promoting rail on a global scale
Charlie Abrines & Ainara González

Session overview

The banner features the event title 'RAILLIVE!' in large, bold letters, with 'RAIL' in white and 'LIVE!' in red and yellow. Above the title are circular icons of the Spanish and British flags. Below the title, the text reads 'TECHNOLOGY, INNOVATION & STRATEGY FOR THE ENTIRE RAIL SUPPLY CHAIN'. The dates and location are '29 November - 1 December 2023 | IFEMA, Madrid' and 'Three Day Exhibition & Conference'. At the bottom, there are two yellow buttons: 'RESERVE A STAND' and 'GET FREE TICKETS'.

What is Rail Live! - objectives, scale and outreach

Rail Live is Spain's leading rail-focused international conference and exhibition which brings together the global supply chain across 3 days of networking, site-visits, and knowledge sharing. The event covers the full supply chain and addresses issues such as funding & finance, skills & talent, digital transformation, climate change & adaptation, and energy efficiency amongst others. We are proudly supported by MITMA, Renfe, ADIF, ICEX, Comunidad de Madrid, Ayuntamiento de Madrid & Metro de Madrid.

International outreach

Rail Live is the central meeting point for both the Spanish and international railway sector, bringing together operators, infrastructure managers, public transport agencies, industry, academia and financiers.

Given that Spain is a leader in this sector many international companies use Rail Live as an opportunity to benchmark against the likes of Renfe, Adif & MdM whilst also using it as an opportunity to establish business relationships with these given their purchasing power.

El AVE a La Meca de Renfe dispara el tráfico y alcanza al Madrid-Barcelona

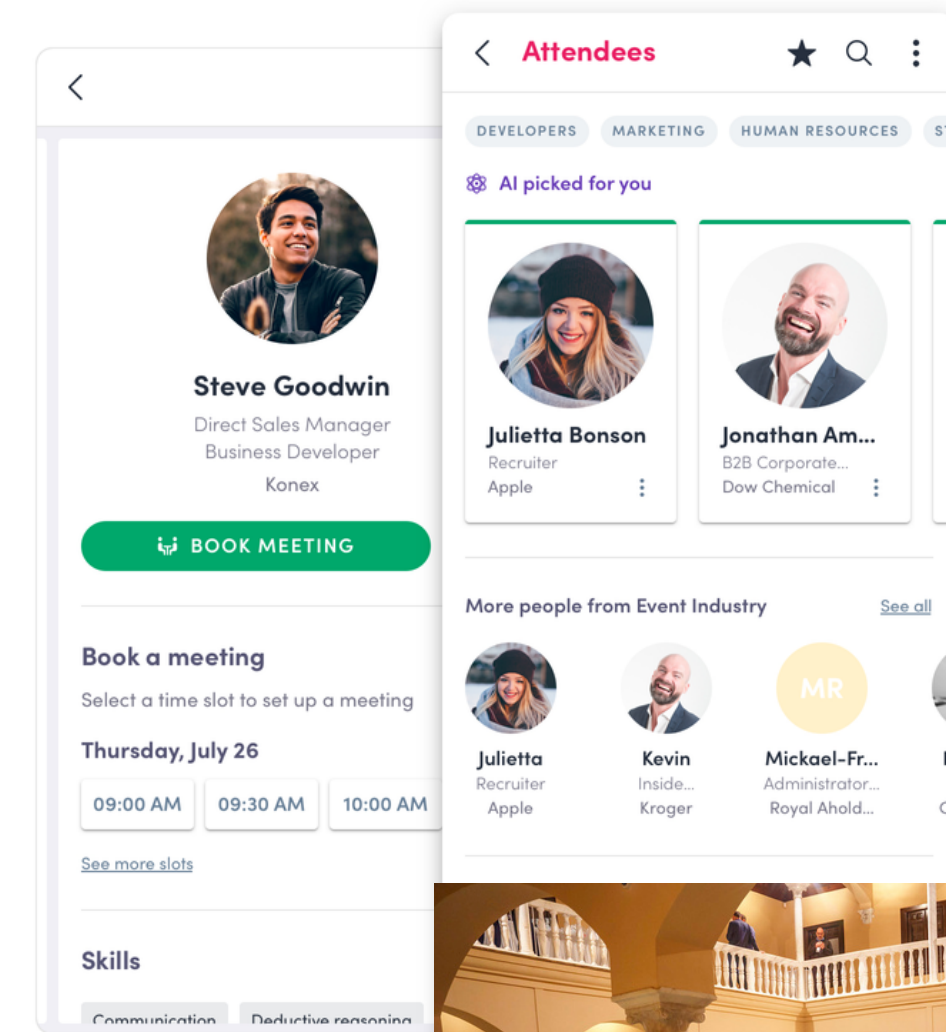

Networking and learning opportunities

Networking is key to Terrapinn events and Rail Live is the perfect opportunity to engage with current business partners and establish new connections.

We facilitate networking through a variety of platform:

- 1 to 1 business meetings (arranged either via the event app or through our dedicated networking team)
- Site visits (these are organised by our strategic partners - Renfe, Adif, MdM & Fundación de los Ferrocarriles Internacionales)
- Drinks receptions (there will be two official drinks receptions for all our VIP delegates. One will take place off-site whilst the other will happen at IFEMA)

Event promotion, marketing & attraction

Channels:

- Email
- Signature banners
- Social media
- Industry journals
- General media

Key dates

- Late May - agenda release and site-visits open
- September - visitor campaign begins to attract 3000-4000 visitors

La expo ferroviaria líder del sector vuelve a Madrid
