Proposal for a

COUNCIL REGULATION

amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

Certain agricultural and industrial products are not produced in the European Union, or not in sufficient quantity. To ensure sufficient and uninterrupted supplies and to prevent market disturbance for these products, Council Regulation (EU) No 1387/2013 partially or totally suspended some autonomous Common Customs Tariff duties.

The Regulation is updated every six months to accommodate the needs of EU industry. The Commission, assisted by the Economic Tariff Questions Group (ETQG), reviews all Member State requests for autonomous Common Customs Tariff duties to be suspended temporarily.

Following this review, the Commission considers that a suspension of duties is justified for some new products currently not listed in the Annex to the Regulation. The conditions governing the description, classification or end-use requirement of some other products should be changed. Products for which a tariff suspension is no longer in the EU's economic interest should be withdrawn.

• Consistency with existing policy provisions in the policy area

This proposal does not affect countries that have a preferential trading agreement with the EU, candidate countries or potential candidates for preferential agreements with the EU (e.g. the Generalised System of Preferences, the African, Caribbean and Pacific group trading arrangements, or free-trade agreements).

• Consistency with other Union policies

The proposal is in line with EU policies on agriculture, trade, enterprise, development and external relations.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

• Legal basis

The legal basis of this proposal is Article 31 of the Treaty on the Functioning of the European Union (TFEU).

• Subsidiarity (for non-exclusive competence)

The proposal falls under the EU's exclusive competence. The subsidiarity principle therefore does not apply.

• Proportionality

The proposal complies with the principle of proportionality. The measures envisaged are in line with the principles for simplifying procedures for operators engaged in foreign trade, as stated in the Commission Communication concerning autonomous tariff suspensions and quotas. This Regulation does not go beyond what is necessary to achieve the objectives pursued in accordance with Article 5(4) of the Treaty on European Union (TEU).

- **Choice of the instrument**

By virtue of Article 31 of the TFEU, "*Common Customs Tariff duties shall be fixed by the Council on a proposal from the Commission*". Therefore, a regulation is the appropriate instrument.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

- **Ex-post evaluations/fitness checks of existing legislation**

A 2013 evaluation of the entire autonomous suspensions scheme concluded that the core rationale for the scheme remains valid. The cost savings for EU businesses importing goods under the scheme can be significant. In turn, depending on the product, company and sector, those savings can have wider benefits, such as boosting competitiveness, making production methods more efficient, and creating and keeping jobs in the EU. Details of the savings of this regulation can be found in the attached legislative financial statement.

- **Stakeholder consultations**

The ETQG, brings together delegates from all Member States plus Turkey, assisted the Commission to prepare this proposal. The group met three times before agreeing the changes in this proposal.

It carefully assessed each request (new, or for an amendment). It focused especially on the need to prevent any harm to EU producers, and to strengthen and consolidate the competitiveness of EU production.

All listed suspensions were the subject of agreements or compromises reached in the ETQG's discussions. No potentially serious risks with irreversible consequences were mentioned.

- **Impact assessment**

The proposed amendment is technical and concerns only the coverage of suspensions listed in the Annex to Council Regulation (EU) No 1387/2013. Therefore, no impact assessment has been carried out for this proposal.

- **Fundamental rights**

The proposal has no impact on fundamental rights.

4. BUDGETARY IMPLICATIONS

This proposal has no financial impact on expenditure but has a financial impact on revenue. Uncollected customs duties total approximately EUR 15,7 million per year. The effect on the budget's traditional own resources is EUR 12,5 million per year (i.e. 80% of the total). The legislative financial statement sets out the budgetary implications of the proposal in greater detail.

The loss of revenue in traditional own resources shall be compensated by Member States' Gross National Income (GNI) based own resource contributions.

5. OTHER ELEMENTS

- **Implementation plans and monitoring, evaluation and reporting arrangements**

The measures proposed are managed under TARIC (the Integrated Tariff of the European Union) and applied by Member States' customs administrations.

Furthermore, the whole scheme of autonomous suspensions and quotas was subject to an evaluation study which was completed in the beginning of December 2013 (http://ec.europa.eu/taxation_customs/common/publications/studies/index_en.htm). The evaluation concluded that the core rationale for the scheme remains valid and that the scheme should continue.

2017/0331 (NLE)

Proposal for a

COUNCIL REGULATION

amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 31 thereof,

Having regard to the proposal from the European Commission,

Whereas:

(1) The Union production of 67 products that are currently not listed in the Annex to Council Regulation (EU) No 1387/2013[1] is not sufficient to cover the needs of the Union industry. It is, therefore, in the interest of the Union to totally suspend the autonomous Common Customs Tariff ('CCT') duties for those products.

(2) It is necessary to modify the conditions of 49 suspensions of autonomous CCT duties, currently listed in the Annex to Regulation (EU) No 1387/2013, in order to take into account technical product developments and economic trends on the market. Certain product classifications have been amended to allow the industry to fully benefit from the suspensions in force. Moreover, the Annex to Regulation (EU) No 1387/2013 should be updated due to the need to align or clarify texts in some cases. The modified conditions relate to changes in the product description, classification, duty rates or end-use requirements.

(3) The date for mandatory review set out in Regulation (EU) No 1387/2013 should be revised for 188 suspensions.

(4) It is no longer in the interest of the Union to maintain 92 of the suspension of autonomous CCT duties that are currently included in the list set out in the Annex to Regulation (EU) No 1387/2013.

(5) In the interest of clarity, the entries for the suspensions that are modified or newly introduced by this Regulation should be marked with an asterisk while the asterisk should be removed from the entries for the suspensions which are not modified by this Regulation.

(6) Regulation (EU) No 1387/2013 should therefore be amended accordingly.

(7) In order to avoid any interruption of the application of the suspension scheme and to fulfil the guidelines set out in the Commission Communication concerning autonomous tariff suspensions and quotas (2011/C 363/2011)[2], the changes regarding

---

[1] Council Regulation (EU) No 1387/2013 of 17 December 2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products and repealing Regulation (EU) No 1344/2011 (OJ L 354, 28.12.2013, p. 201).

[2] OJ C 363, 13.12.2011, p. 6.

the suspensions for the products concerned provided for in this Regulation should enter into force as a matter of urgency and apply from 1 January 2018,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EU) No 1387/2013 is amended as follows:

(1) the rows for the products for which the CN and TARIC codes are set out in Annex I to this Regulation are deleted;

(2) all asterisks and in the notes, the line '* A newly introduced measure or a measure with amended conditions.' are deleted;

(3) the rows for the products listed in Annex II to this Regulation are inserted following the order of the CN codes indicated in the first column of the table in the Annex to Regulation (EU) No 1387/2013.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union.*

It shall apply from 1 January 2018.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council
The President

LEGISLATIVE FINANCIAL STATEMENT

1. NAME OF THE PROPOSAL:

Council Regulation amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products

2. BUDGET LINES:

Chapter and Article:
Chapter 1 2 and Article 1 2 0 – Customs duties and other duties referred to in point (a) of Article 2(1) of Decision 2014/335/EU, Euratom;

Amount budgeted for the year 2018 (22 844 000 000 EUR)

3. FINANCIAL IMPACT

☐ Proposal has no financial implications

X Proposal has no financial impact on expenditure but has a financial impact on revenue -the effect is as follows:

(EUR million to one decimal place[3])

Budget line	Revenue[4]	12 month period, starting dd/mm/yyyy	[2018 – 2022]
Article 120	*Impact on own resources*	01/01/2018	- 12,5

Annex I contains 67 new products. The uncollected duties corresponding to these suspensions, calculated on the basis of requesting Member State projections for the period 2018 to 2022, amount to EUR 22,2 million per year.

On the basis of the existing statistics for preceding years, it would appear, however, necessary to increase this amount by an average factor, estimated at 1,8 to take account of imports into other Member States using the same suspensions. This will result in uncollected duties of around EUR 40,0 million per year.

92 products have been withdrawn from the Annex to the regulation, reflecting the reintroduction of customs duties. This represents an increase of EUR 24,3 million in the collection of duties. As the deletions are in force as of 1st of January 2018 statistics are not available and the increase has been calculated using requesting Member State projections.

---

[3] The amounts per year need to be an estimation based on the formula under section 5 with a footnote indicating it, e.g. "indicative amount based on the agreed formula". For the starting year, the yearly amount is normally paid without a reduction or pro rata.

[4] In the case of traditional own resources (agricultural duties, sugar levies, customs duties), the amounts indicated must be net amounts, i.e. gross amounts after deduction of 20 % for collection costs.

On the basis of the above, the impact on the loss of revenue for the EU budget resulting from this Regulation is estimated at EUR 15,7 million (EUR 40,0 – 24,3 million). Multiplying this gross amount, including collection costs, by a factor of 0,8 gives a total of EUR 12,5 million per year for the period running from 1 January 2018 to 31 December 2022.

4. ANTI-FRAUD MEASURES

Checks on the end-use of some of the products covered by this Council Regulation will be carried out in accordance with Article 254 of Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code.

ANNEX II

In the table set out in the Annex to Regulation (EU) No 1387/2013, the following rows are inserted following the order of the CN codes indicated in the first column of that table

CN code	TARIC	Description	Rate of autonomous duty	Supplementary Unit	Date foreseen for mandatory review
*ex 1511 90 19 *ex 1511 90 91 *ex 1513 11 10 *ex 1513 19 30 *ex 1513 21 10 *ex 1513 29 30	20 20 20 20 20 20	Palm oil, coconut (copra) oil, palm kernel oil, for the manufacture of: — industrial monocarboxylic fatty acids of subheading 3823 19 10, — methyl esters of fatty acids of heading 2915 or 2916, — fatty alcohols of subheadings 2905 17, 2905 19 and 3823 70 used for the manufacture of cosmetics, washing products or pharmaceutical products, — fatty alcohols of subheading 2905 16, pure or mixed, used for the manufacture of cosmetics, washing products or pharmaceutical products, — stearic acid of subheading 3823 11 00, — goods of heading 3401, or — fatty acids with high purity of heading 2915 (1)	0 %	-	31.12.2018
*ex 2007 99 50 *ex 2007 99 50 *ex 2007 99 93	83 93 10	Mango puree concentrate, obtained by cooking: — of the Genus *Mangifera spp.*, — with a sugar content by weight of not more than 30 % for use in the manufacture of products of food and drink industry (1)	6 % (2)	-	31.12.2022
*ex 2007 99 50 *ex 2007 99 50	84 94	Papaya puree concentrate, obtained by cooking: — of the Genus *Carica spp.*, — with a sugar content by weight of more than 13 % but not more than 30 % for use in the manufacture of products of food and drink industry (1)	7.8 % (2)	-	31.12.2022
*ex 2007 99 50 *ex 2007 99 50	85 95	Guava puree concentrate, obtained by cooking: — of the Genus *Psidium spp.*, — with a sugar content by weight of more than 13 % but not more than 30 % for use in the manufacture of products of food and drink industry (1)	6 % (2)	-	31.12.2022
*ex 2008 93 91	20	Sweetened dried cranberries, excluding packing alone as processing, for the manufacture of products of food processing industries (3)	0 %	-	31.12.2022
*ex 2008 99 49 *ex 2008 99 99	70 11	Blanched vine leaves of the genus *Karakishmish*, in brine, containing by weight: — more than 6 % of salt concentration, — 0,1 % or more but not more than 1,4 % of acidity expressed as citric acid monohydrate and — whether or not but not more than 2 000 mg/kg of sodium benzoate according CODEX STAN 192-1995 for use in the manufacture of stuffed vine leaves with rice (1)	0 %	-	31.12.2022

CN code	TARIC	Description	Rate of autonomous duty	Supplementary Unit	Date foreseen for mandatory review
*ex 2106 90 92	50	Casein protein hydrolysate consisting of: — by weight 20 % or more but not more than 70 % free amino acids, and — peptones of which by weight more than 90 % having a molecular weight of not more than 2000 Da	0 %	kg	31.12.2022
*ex 2804 50 90	40	Tellurium (CAS RN 13494-80-9) of a purity by weight of 99,99 % or more, but not more than 99,999 %, based on metallic impurities measured by ICP analysis	0 %	-	31.12.2018
*ex 2805 19 90	20	Lithium metal (CAS RN 7439-93-2) of a purity by weight of 98,8 % or more	0 %	-	31.12.2022
*ex 2811 22 00	15	Amorphous silicon dioxide (CAS RN 60676-86-0), — in the form of powder — of a purity by weight of 99,0 % or more — with a median grain size of 0,7 μm or more, but not more than 2,1 μm — where 70 % of the particles have a diameter of not more than 3 μm	0 %	-	31.12.2020
*ex 2811 29 90	10	Tellurium dioxide (CAS RN 7446-07-3)	0 %	-	31.12.2022
*ex 2816 40 00	10	Barium hydroxide (CAS RN 17194-00-2)	0 %	-	31.12.2022
*ex 2823 00 00	10	Titanium dioxide (CAS RN 13463-67-7): — of a purity by weight of 99,9 % or more, — with an average grain-size of 0,7 μm or more but not more than 2,1 μm	0 %	-	31.12.2022
*ex 2825 10 00	10	Hydroxylammonium chloride (CAS RN 5470-11-1)	0 %	-	31.12.2022
*ex 2825 60 00	10	Zirconium dioxide (CAS RN 1314-23-4)	0 %	-	31.12.2022
*ex 2835 10 00	10	Sodium hypophosphite monohydrate (CAS RN 10039-56-2)	0 %	-	31.12.2022
*ex 2837 20 00	20	Ammonium iron (III) hexacyanoferrate (II) (CAS RN 25869-00-5)	0 %	-	31.12.2022
*ex 2839 19 00	10	Disodium disilicate (CAS RN 13870-28-5)	0 %	-	31.12.2022
*ex 2841 50 00	10	Potassium dichromate (CAS RN 7778-50-9)	0 %	-	31.12.2022
*ex 2841 80 00	10	Diammonium wolframate (ammonium paratungstate) (CAS RN 11120-25-5)	0 %	-	31.12.2022
*ex 2841 90 30	10	Potassium metavanadate (CAS RN 13769-43-2)	0 %	kg	31.12.2022
*ex 2841 90 85	10	Lithium cobalt(III) oxide (CAS RN 12190-79-3) with a cobalt content of at least 59 %	0 %	-	31.12.2022
*ex 2850 00 20	30	Titanium nitride (CAS RN 25583-20-4) with a particle size of not more than 250 nm	0 %	-	31.12.2022
*ex 2850 00 20	60	Disilane (CAS RN 1590-87-0)	0 %	-	31.12.2022
