

DUBAI FLOWER CENTRE VISIT

Turkish delegates participating in IPM Dubai 2008 Exhibition, visited Dubai Flower Centre, the new logistical centre located in Dubai International Airport. The delegates were informed about the system and the facilities of DFC.

The Dubai Flower Centre has been designed to meet demands for innovative logistics in the cut flower industry to reduce transit times, improve quality and grow profits. DFC, providing easy access to more than 1.5 billion consumers in the region, is capable of handling up to 180,000 tons of flowers and perishables.
